KOMPETENZEN

- Operating Systems; Linux (Ubuntu, Kali Linux – Persistent & Line), Windows, Windows Server.
- Networking: TCP IP Stack, DNS, DHCP, HTTP/S, DilB, Packet Analysis, Subsecting.
- Security Tools: Ninap, Wireshask, Metasploft, Deb, Wartch (Basic), Splank (Learning).
- Cloud & Virtualization, Virtualizen, VMware, Visualizxized Knowledge of AWS Aware Security Groups & IAM.
- Tools & Platforms: Git, Gillflah, Jekyli (Chippy), Markdown, Serheitch Documentation.
- Programming/Scripting: Python (Foundational), Bash Scripting (Automation), SQL

SPRACHEN

Urdu, Hindi: Muttersprache

Deutsch: C2

Fielbend (C2)

Englisch: B2

BERUFSERFAHRUNG

IT Manager Rise Group of Colleges - Multan
01/2019 - 05/2022

- Implementing and Managing Networks for the Organization.
- Implemententer neuer Sofh and Hardwarkkomponenten.
- Fostlegen von Zielen, Projekten and Zeitvorgeben in der IT-Atbeltung.
- Kontinuierischer Monitoring von Systemleistung, –vorfligherkeit und stabillitêt.

AUSBILDUNG

Bachelor of Science: Computer Science
NFC Institute of Engineering & Technology - Multan, Pakistan, 2014 - 2018

HOME LABS

0 Trust SSH/BASTION SERVER

- Removed Password Authentication, Implemented Cryptographic Ed25519 Keys Authentication System.
- Removed Accoss to Root Login
- Implemented Intresion detection System Fai2Ban.
- Protected part 22.
- Implemented breasell.
- Managed brench legs successfully.

Network Reconnaissance & Analysis Lab

- Drganzed deep-diec scanning and enmire enumuration using Ninap, Dirb, and Wireshark.
- Documented TCP IP stack analysis and 30+ custom network queries in a structured Gillflah repreitory.

Cloud-Ready "Proof of Work" Portfolio

- Deployed an automated technical blog using Jekyll and Gillflah Pages to document daily security milestones.
- Organized hands on lims in Linux administration and networking to provide transparent evidence of technical competence.
