KOMPETENZEN

• Operating Systems: Linux (Ubuntu, Kali), Windows, Windows Server
• Networking: TCP/IP, DNS, DHCP, HTTP/S, SSH, Packet Analysis
• Security Tools: Nmap, Wireshark, Metasploit, Dirb, Wazuh, Splunk
• Cloud & Virtualization: AWS/Azure Basics, VMware, VirtualBox
• Programming/Scripting: Python, Bash, SQL

SPRACHEN

English – Professional

Turkish – Fluent

Hindi/Urdu – Native

Rao Tariq Jameel

CLOUD SECURITY ENGINEER (ASPIRANT)

BERUFSERFAHRUNG

• IT Manager – Rizq Group of Colleges, Multan
• 6+ years Linux and Networking self-study experience
• Experienced with GitHub-based technical documentation
• Focused on Zero Trust, Network Defense, and Cloud Security
• Knowledge in Linux administration and system hardening

AUSBILDUNG

Bachelor of Science: Computer Science
NFC Institute of Engineering & Technology – Multan, Pakistan
Graduation Year: 2018
Dean's List Honors | Programming Contest Champion

HOME LABS

Zero Trust Bastion Server
• Removed password authentication and implemented Ed25519 keys
• Disabled root login and secured SSH access
• Configured firewall and Fail2ban intrusion detection

Network Recon & Analysis Lab
• Performed packet analysis and TCP/IP testing using Nmap, Dirb, and Wireshark
• Documented 30+ custom network queries in GitHub repository

Cloud-Ready "Proof of Work" Portfolio
• Developed automated security blog using Jekyll and GitHub Pages
• Organized Linux administration and networking labs
