English: C1 (Proficient)

Turkish: B2 (Independent)

Urdu / Hindi: Native

DIGITAL SKILLS

Zero-Trust, SSH Hardening, Fail2Ban, Nmap, Wireshark, Git, GitHub, Jekyll, Markdown

Rao Tariq Jameel

Cloud Security Engineer (Aspirant)

PROFESSIONAL SUMMARY

Computer Science graduate specializing in Cloud Security Engineering and Network Defense. Proficient in Linux (Ubuntu/Kali) and TCP/IP networking, with a focus on building "Proof of Work" through documented technical labs. Dedicated to securing cloud-native environments and zero-trust architectures.

WORK EXPERIENCE

IT / Network Administrator **2019 – 2022**

- Managed enterprise network infrastructure, ensuring 99.9% uptime.
- Hardened security via stateful firewalls, IPS, and zero-trust ACLs.
- Conducted audits and log analysis to patch network vulnerabilities.
- Optimized connectivity and latency through traffic analysis and protocol tuning.

TECHNICAL PROJECTS

0 Trust SSH / Bastion Server

- Implemented Ed25519 Keys; disabled root login and password authentication.
- Deployed Fail2Ban IDS to protect Port 22 and managed breach logs.

Network Intrusion Detection (IDS) Lab

- **Tech:** Suricata, Ubuntu, TCPdump. Detected Nmap stealth scans.
- **Cloud Link:** Mimics AWS GuardDuty and Azure Sentinel threat detection.

Software-Defined Networking (SDN) Lab

- **Tech:** Linux Namespaces (ip netns), Virtual Ethernet (veth), IPTables.
- **Cloud Link:** Demonstrates Amazon VPC and Kubernetes networking architecture.

EDUCATION

Bachelor of Computer Science **2018**
NFC Institute of Engineering and Technology, Pakistan

TECHNICAL SKILLS

OS: Linux (Ubuntu, Kali-Persistent), Windows Server.

Networking: TCP/IP, DNS, DHCP, SSH, Packet Analysis, Subnetting.

Security: Metasploit, Wireshark, Wazuh, Splunk, IAM, Security Groups.

Dev: Python, Bash Scripting, SQL.
